Advance Praise for *Pianos Inside Out*

“If I could have only one book in my piano technology library, this would have to be it.” —**STEPHEN BRADY, RPT**,
author of Under the Lid

“Very comprehensive and full of valuable information.”
—**PAUL BADURA-SKODA**

“The inharmonicity discussion . . . is the most clear and accurate that has ever been published for the lay-person crowd.” —**DAVE CARPENTER, RPT**,
designer of Verituner®

“[This] is a more complete discussion [of geometry and touchweight] for a beginner than can be had in any volume I know of.”
—**JIM IALEGGIO, RPT**, *piano rebuilder*

“Uniformly balanced, and excellent. . . . A sort of encyclopedia of pianos and piano construction and service.”
—**ALLEN WRIGHT, RPT**, *consulting technician and restorer for Steinway & Sons London, John Broadwood & Sons, and Period Piano Company*

PIANOS INSIDE OUT takes an in-depth look at the history, design, and maintenance of the piano, and provides practical guidance to anyone who wants to learn how to improve action performance, tune, repair, regulate, voice, or rebuild pianos. The book offers a coherent, unified view of the advancements of the last 30 years.

Pianos Inside Out is written for hobbyists, students, and piano technicians, but it will also help pianists and piano owners to better understand their instruments and to communicate more effectively with their technicians. The book is full of clear, concise, step-by-step instructions, and more than 700 illustrations and diagrams.

MARIO IGREC, a native of Croatia, taught piano technology and served as a piano technician at Louisiana State University for

eight years. As an independent concert technician and master rebuilder, he has serviced and rebuilt many pianos in southern Louisiana, and worked for Richard Goode, Jon Kimura Parker, Garrick Ohlsson, and other renowned pianists. Himself an award-winning pianist with a Master of Music degree from SUNY Stony Brook, he brings to the field a unique perspective that bridges piano technology and pianism.
